2020-02 -
2020-08

Software Developer (Remote)

Smart Management-its, Doha

- Contributed expertise to Smart Management-its, a leading CRM system company in Doha, specializing in selling solutions with a unique subscription model for client upgrades.
- Led the development of the finance module during a six-month remote contract, showcasing proficiency in Yii, Laravel, Lumen, and Vue.js.
- Collaborated seamlessly with the development team, implementing new features for both the finance and manufacturing modules of the CRM software.
- Utilized a combination of Yii, Laravel, Lumen, and Vue.js, emphasizing effective teamwork and communication during the contract period.

2018-06 -
2020-04

Software Developer

IGHUB, Aba

- Contributed significantly to Innovation Growth Hub (IGHUB), an incubation hub in Aba, fostering startup growth and nurturing innovative ideas.
- Collaborated with the tech team to assist startups in conceiving and developing Minimum Viable Products (MVPs), creating a supportive environment for innovative ideas.
- Demonstrated proficiency in diverse technologies, including Python, Django, Laravel, React.js, Vue.js, PHP, and Java, showcasing adaptability and a broad skill set.
- Led the development of multiple software products, emphasizing effective communication and coordination within the team.
- Spearheaded the setup of dedicated hosting services for the company, ensuring the reliability and efficiency of hosting services in collaboration with a dedicated team.

2018-01 -
2018-04

Junior Developer/Fellow

NHub, Jos

- Contributed to NHub's mission of building and incubating startups, fostering a dynamic environment for entrepreneurial growth and technological innovation.
- Collaborated closely with a team of skilled engineers, actively participating in assisting startups

to conceptualize and bring their solutions to life. This involved close collaboration and effective communication within a dynamic team setting.

- Leveraged a diverse technology stack, primarily focusing on Angular, PHP, Laravel, and Django, showcasing adaptability and versatility in working with various frameworks and languages.
- Played a key role in developing a farm database application, demonstrating practical application of technology to address specific industry needs.
- Built the API for the farm database application using Laravel, ensuring seamless communication between different components.

2017-06 -
2016-04

Web Development Tutor

Classic Connections, Ado

- Provided educational leadership as a Web Development Tutor, teaching developers the fundamentals of web programming and offering insights into foundational concepts.
- Conducted web programming classes for students, ensuring a comprehensive learning experience aimed at equipping them with essential skills.
- Emphasized hands-on learning and application of concepts, facilitating practical knowledge transfer in the field of web development.
- Showcased a commitment to knowledge sharing, contributing significantly to the education and skill development of aspiring developers and students.

Education

2015-01

BSc: Biological Sciences

University of Abuja

Accomplishments

- Hospital Management System: Developed an offline Hospital Management System designed for universal use across all types of hospitals.
